

## RF Amplifier Factory Performance Certificate

|       |                  |            |       |      |           |      |         |
|-------|------------------|------------|-------|------|-----------|------|---------|
| Model | BTM00250-AlphaSA | Serial No. | 20484 | Date | 21-Feb-17 | Time | 1:59 PM |
|-------|------------------|------------|-------|------|-----------|------|---------|

**Pout @0dBm** Measured @10% Duty, 100uS Pulse Width

**P1dB** Measured @10% Duty, 100uS Pulse Width

**Small signal gain** Measured @10% Duty, 100uS Pulse Width, Pout=10% of Prated

Harmonics Measured @ Pout = P1dB spec.

Input Power (dBm) for 50W Out in CW mode

|                                   |    |
|-----------------------------------|----|
| 10uS Pulse Visually OK            | OK |
| Overduty Shutdown at max duty*1.2 | OK |
| No Shutdown at max duty*1.02      | OK |
